

Quarterly cash flow and activities report – 30 September 2015

Genetic Signatures (ASX: GSS) is pleased to report on its activities for the quarter ended 30 September 2015.

Highlights:

- Diagnostic kit sales of \$442,000 representing 44.3% growth compared with the previous quarter (ending June 30, 2015) and 138% growth on the equivalent corresponding quarter last year
- Cash receipts from customers of \$383,000
- Research and Development Tax Concession (grant income) of \$968,000 received from the Australian Federal Government
- Total cash receipts, including interest and grant income of \$1,359,000
- Cash at 30 September: \$5,472,000
- North American commercial operations launched
- Further geographical expansion for our *EasyScreen*TM pathogen detection products with distribution deals signed for Ireland and Poland

Activities subsequent to period:

- Receipt of a further United States Food and Drug Administration (FDA) listing for a second clinical sample concentrator (SP003 sample processing kit), representing another important step towards full product suite commercialisation in the US

Upcoming activities:

- The Company's AGM will be held on Monday 9 November 2015
- Continued revenue growth from sales to existing and new customers, locally and from various international markets.
- Expansion of *EasyScreen*TM product menu
- The appointment of additional distributors in Europe, with associated expansion of the company's distributor support network

Corporate:

- Dr Tony Radford appointed to the Board of Directors, bringing extensive experience in the global medical device industry and the management of ASX-listed medical device companies
- Patrick Noland appointed as Executive Vice President of US Operations, focusing on US Market Entry
- Mark Langan appointed as Chief Financial Officer
- Anna Sandham appointed as Company Secretary

Commentary

Genetic Signatures recorded another quarter of strong growth for the period ended 30 September 2015, with diagnostic kit sales growth of 44.3% quarter on quarter and 138% on the equivalent corresponding quarter last year.

Further European distributors were signed during the quarter, with the signing of distribution deals for Ireland and Poland, expanding the market reach for the company's *EasyScreen™* products. The company will continue to appoint distributors in other European jurisdictions in line with the company's expectation of further significant growth.

The company made a number of key appointments during the quarter to support growth and expansion, including the appointment of Patrick Noland as Executive Vice President of US Operations and Mark Langan as Chief Financial Officer. Dr Tony Radford was appointed to the Board of Directors and Anna Sandham was appointed as Company Secretary. The company looks forward to updating the market over the coming quarter as additional milestones are achieved.

About Genetic Signatures: Genetic Signatures is a specialist molecular diagnostics (MDx) company focused on the development and commercialisation of its proprietary platform technology, 3Base™. Founded in 2001 by the late Dr Geoffrey Grigg, the former Chief of Molecular Biology at CSIRO, Genetic Signatures has released a suite of real-time PCR based products for the routine detection of infectious diseases under the *EasyScreen™* brand. Molecular diagnostics (MDx) is a modern technique increasingly used by hospitals and pathology laboratories to detect specific sequences of the genome, the DNA or RNA that define an organism.

Genetic Signatures' proprietary MDx 3Base™ platform technology provides high-volume hospital and pathology laboratories the ability to screen for a wide array of infectious pathogens, with a high degree of specificity, in a rapid throughput (time-to-result) environment.

The *EasyScreen™* Enteric Detection Kits were the first product line launched as part of the *EasyScreen™* product range in 2012. This panel of assays supports hospitals and laboratories to screen for a wide range of infectious agents including viral, bacterial and protozoan agents. The *EasyScreen™* Respiratory Virus Detection Kits detects 15 viral causes of respiratory infection.

Genetic Signatures' current target markets are major hospital and pathology laboratories undertaking infectious disease screening. As the spread of infectious diseases around the world continues to grow, the Company plans to launch additional products for the detection of pathogens associated with MRSA, sexual health infections, tuberculosis and meningitis.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report except for any additional disclosure requirements requested by AASB 107 that are not already itemised in this report.
3. **Accounting Standards.** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.
