

Quarterly Cash Flow and Activities Report – 31 December 2016

Genetic Signatures (ASX: GSS) is pleased to report on its activities for the quarter ended 31 December 2016.

Highlights

- **Sales revenue growth of 13% on the previous corresponding period.**
- **Completion of oversubscribed \$15M capital raising to domestic and offshore institutional investors.**
- **Validation study completed on the *EasyScreen*[™] Sexually Transmitted Infection (STI) Detection Kit, which includes routine detection of dangerous Chlamydia serovars (LGV).**

Sales Growth of 13% over previous corresponding quarter

- Total sales revenue of \$463,138, representing 13% growth on the previous corresponding period.
- Cash receipts from customers of \$472,417.
- Cash at 31 December: \$16.01M.

Global Market Expansion

- Completion of oversubscribed \$15M capital raising to domestic and offshore institutional investors, allowing further investment in offshore expansion.
- Genetic Signatures has been selected for a prestigious presentation at the 27th European Congress of Clinical Microbiology and Infectious Diseases in April, where it will highlight the improved detection of Flaviviruses with our proprietary *3Base*[™] technology.
- The company exhibited at the 65th American Society of Tropical Medicine and Hygiene Meeting in November and the 16th Asia Pacific Congress of Clinical Microbiology and Infection in December.

Product Range Expansion

- Clinical Validation study completed for the *EasyScreen*[™] Sexually Transmitted Infection (STI) Detection Kit. The results have demonstrated strong performance across 12 of the most significant and commonly encountered STIs. Additional STI infections were identified with the Genetic Signatures Kit as compared to existing hospital testing techniques. This validation study will become part of the Company's application for regulatory approval.
- The *EasyScreen*[™] STI Detection Kit includes the detection of *Lymphogranuloma venereum* (LGV), a dangerous serovar of Chlamydia, which is increasing in prevalence in Australia, Europe and the US, and was the subject of a recent government health alert¹. The *EasyScreen*[™] STI Detection Kit will allow labs to perform this test daily and not have to send them to a reference laboratory.
- The *EasyScreen*[™] STI Detection Kit will be released in Research Use Only form in the current quarter. Work will continue on regulatory approvals in Australia and Europe to register the kit as a full IVD.
- Research and development on new kits and assays continues, including kits for atypical respiratory infections, antibiotic resistance, Flavivirus (including Zika) and meningitis.

Upcoming Activities

- The Company is preparing its *EasyScreen*[™] (STI) Detection Kit for commercial release.
- The focus for the current quarter remains sales growth, product range extension and market share expansion.
- In the United States, Genetic Signatures has now commenced the FDA approval process for securing full regulatory approval for our first products.

Commentary

Genetic Signatures recorded revenue growth for the period ended 31 December 2016, with total sales revenue growth of 13% on the previous corresponding quarter. As expected, the respiratory testing season has concluded and sales of the Company's respiratory product returned to off-peak levels.

During the quarter, the Company received the proceeds of the \$15M capital raising, strengthening its balance sheet and laying a strong foundation for future growth. With an estimated US\$2.1B addressable global market in 2017, these funds are being directed to accelerate the Company's global expansion strategy, which will prioritise the United States and Europe.

In addition to growing our international client base, the Company will focus on furthering molecular diagnostic approvals for existing and new products in key global markets that will drive revenue further in other product categories along with shareholder value.

¹ <http://www.health.nsw.gov.au/Infectious/alerts/Documents/LGV-alert-jan-2017.pdf>

The Company is also focusing on accelerated validation and development of its current and new product range, including advancing research and development of five new diagnostic products.

Genetic Signatures' outlook remains focused on achieving strong revenue growth, progressing significant offshore opportunities and driving shareholder value. Collectively this supports the Company's long-term goal of continuing to target health conditions where faster and more accurate diagnosis plays a pivotal role in improving community health in Australia and across the globe.

About Genetic Signatures Limited: Genetic Signatures is a specialist molecular diagnostics (MDx) company focused on the development and commercialisation of its proprietary platform technology, *3Base*[™]. Genetic Signatures designs and manufactures a suite of real-time Polymerase Chain Reaction (PCR) based products for the routine detection of infectious diseases under the *EasyScreen*[™] brand. Genetic Signatures' proprietary MDx *3Base*[™] platform technology provides high-volume hospital and pathology laboratories the ability to screen for a wide array of infectious pathogens, with a high degree of specificity, in a rapid throughput (time-to-result) environment. Genetic Signatures' current target markets are major hospital and pathology laboratories undertaking infectious disease screening.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
